State, political organization of society, or the body politic, or, more narrowly, the institutions of government. The state is a form of human association distinguished from other social groups by its purpose, the establishment of order and security; its methods, the laws and their enforcement;

its territory, the area of jurisdiction or geographic boundaries; and finally by its sovereignty.

state | Definition, History, Figures, & Facts | Britannica

By attending to the politics of state regulation in one country, it makes a major contribution to the private security literature.' - The British Journal of Criminology 'The political economy approach White develops sheds genuinely new light upon the contemporary history of private security in Britain' - Criminology & Criminal Justice

The Politics of Private Security - Regulation, Reform and ...

The state is a particular kind of society, a group sovereign over a specific territory, and the balance of powers manifesting this sovereignty is the political system. The political system may not encompass all of society, and indeed may be restricted to a limited sphere. Nonetheless, the type of political system and type of society are congruent.

POLITICS, GOVERNANCE, AND STATE-SOCIETY RELATIONS ATLANTIC COUNCIL 1 FOREWORD The Middle East is seeing a century-old political order unravel, an unprecedented struggle for power within

Politics, governance, and state-society relations

Just as our project on the Politics of Global Regulation was nearing its conclusion, a global financial crisis erupted. It began with the rapid increase of defaults in subprime mortgages in the United States and a few other countries and quickly spread across highly intertwined financial markets, affecting millions of people.

The Politics of Global Regulation on JSTOR

The rise of the modern day state system was closely related to changes in political thought, especially concerning the changing understanding of legitimate state power and control. Early modern defenders of absolutism (Absolute monarchy), such as Thomas Hobbes and Jean Bodin undermined the doctrine of the divine right of kings by arguing that the power of kings should be justified by reference to the people.

In democracies, laws and policies are just as soon unpicked as made. It seems that Congress and Parliaments cannot forge progress or consensus. Moreover, courts often overturn decisions made by elected representatives. In the absence of effective politicians, many turn to the courts to solve political and moral questions.

Trials of the State: Law and the Decline of Politics ...

Biopolitics, he argues, refers to a historical transformation and development, beginning in the 17th century, whereby the sovereign right to seize, repress, and destroy life is complemented by a new form of power that aims to develop, optimize, order, and secure life. Foucault often uses the term biopower to denote this new form of productive power.
