In this up-close and personal look at the heroines who make family, community, and society tick, Miriam Ching Yoon Louie showcases immigrant women workers speaking out for themselves, in their own words. While public outrage over sweatshops builds in intensity, this book shows us who these workers really are and how they are leading campaigns to fight for their rights.

By highlighting the improvements workers have made, Sweatshop Warriors brings the immigrant women workers' courageous struggles to life. "These grassroots immigrant women are the very heartbeat of the labor and anti-sweatshop movements," Louie writes. As two anti-sweatshop activists ourselves, we can attest to the validity of this statement.

While public outrage over sweatshops builds in intensity, this book shows us who these workers really are and how they are leading campaigns to fight for their rights. In-depth, accessible analyses of the immigration, labor, and trade policies that have collided to put these women in the most dangerous, poorly paid jobs dovetail with vivid portraits of the women themselves.

"Sweatshop Warriors" is one of my personal top ten books on radical organizing. It looks at transnational sweatshops through the eyes of Korean, Chinese and Mexican women forced to leave their homes of origin to take super exploited labor jobs in the world's sweatshops, ending up in the garment rows of NY, Oakland, LA, El Paso, etc.

Some of the organizations noted are run by women, and many have a majority of women members. They have structured themselves to address the issues which women workers face, not only in the workplace, but also in the community. Sweatshop Warriors has an additional value in that it puts the immigrant question squarely on the table. For many black Americans, the matter of immigration is a sore point insofar as we are often led to believe that we are largely in competition with immigrants.

Monthly Review | Sweatshop Labor, Sweatshop Movement

"Through their trust and belief in the wisdom of women workers, these sweatshop warriors are calling on the power of the people to share and analyze their life experiences and map the road..."
