Teaching with the Brain

in Mind is a terrific

resource for teachers

who are trying to

maximize the use of

their time with

students... to get the

most "bang for the

buck" so to speak. This

book explores ideas

about how the brain

works; how movement,

In accordance with connectionism, reading in the brain is a self-teaching system. Once the brain has learnt to read a word, it can use this knowledge to read new words. The brain quickly learns which words look right and which words need to be checked in a dictionary. The self-teaching

Get Free Teaching With

function of the brain means that once the correct circuits are in place, the brain continues to reinforce these circuits, making them stronger.
