The Human Age: The World Shaped By Us: Ackerman, Diane ...

Calling this epoch of geological history Anthropocene, or the Human Age, she presents world-wide examples of how we are trying to mitigate the effects of humans on all aspects of our planet. She examines, among other things, changes in animal habitats and migrations, the warming of our climate, the changing oceans and the constant battle to supplant fossil fuels with other energy resources.

The Human Age: The World Shaped by Us; by Diane Ackerman

IN THE HUMAN AGE, Diane Ackerman reframes the subject by asking us to rethink not just the relationship between humanity and nature, but also the idea of nature itself. Her concern in her latest book is the place of humankind in the [natural world] and how, because we are an intrinsic and inseparable part of it, we shape nature to meet our needs and desires, and it shapes us in return.

The Human Age: The World Shaped By Us. Diane Ackerman. \$19.99; Listen \$19.99; Listen Publisher Description (Our relationship with nature has changed . . . radically, irreversibly, but by no means all for the bad. Our new epoch is laced with invention. Our mistakes are legion, but our talent is immeasurable.)

The Human Age: The World Shaped By Us on Apple Books

The Human Age : The World Shaped by Us by Diane Ackerman. Overview - Humans have "subdued 75 percent of the land surface, concocted a wizardry of industrial and medical marvels, strung lights all across the darkness." We tinker with nature at every opportunity; we garden the planet with our preferred species of plants and animals, many of them invasive; and we have even altered the climate, threatening our own extinction.

The Human Age : The World Shaped by Us by Diane Ackerman

Praise For The Human Age: The World Shaped By Us! An ode to the planet we've created for ourselves! Rarely grim, and the overwhelming spirit is one of relentless optimism.
