The Lost Fens: England's Greatest Ecological Disaster ...

The Fens, also known as the Fenlands, is a coastal plain in eastern England. This naturally marshy region supports a rich ecology and numerous species, and helps absorb storms. Most of the fens were drained centuries ago, resulting in a flat, dry, low-lying agricultural region supported by a system of drainage channels and human-made rivers and automated pumping stations. There have been unintended consequences to this reclamation, as the land level has continued to sink and the dykes have been
