The Semantics of Colour

In these circumstances, and until there is general agreement, it is essential for writers on the semantics of colour to make clear their own usage at the outset, and to avoid straying from those definitions. 1 My own usage of the four crucial terms, hue, saturation, tone and brightness, now follows.

The Semantics of Colour: A Historical Approach by Biggam ...

Colourful semantics is a targeted approach to support children with their sentence building and to teach them about sentence structure.

It was developed by Alison Bryan and is now widely used with children experiencing language difficulties. Who might the colourful semantics approach help? Colourful semantics works really well for lots of different children and young people.
