The main hypothesis of J. Stacy Adams' theory is that work motivation is based on the way the employee values the task they're doing, the rewards they'll get, and how they compare to their co-workers. This comparison will lead to higher or lower motivation, which will consequently affect their actions.

Three Work Motivation Theories - Exploring your mind

In the 1960s J. S. Adams offered a theory that claimed that work motivation could be understood in terms of people's perceptions of the exchange relationship they have with the employer. Social comparison processes with other individuals played a huge role in the dynamics of this theory, which has evolved over the past 15 years to diverse and more advanced thinking about justice.
