I am a self-proclaimed lover of books, especially those that have a capacity to speak across generations. So, it was with great appreciation that moments ago I closed the cover on this wonderful little work. J.B. Phillips wrote Your God is Too Small in 1952 yet it remains imminently quotable for those grappling with 21st century objections to faith. His adept way of addressing the closed universe of modern thinking is striking for a number of reasons.

Your God is Too Small is a groundbreaking work of faith, which challenges the constraints of traditional religion. In his discussion of God, author J.B. Phillips encourages Christians to redefine their understanding of a creator without labels or earthly constraints and instead search for a meaningful concept of God.

Your God Is Too Small is the title of the book written by J.B. Phillips, and in some ways, the expression reflects the problems that lay behind the plaintive cry of abandonment felt by Judah's exiles during the sixth century BC. Perhaps they thought that their circumstances were too complicated for God to unravel and fix.

Your God is Too Small 2 by no means always unintelligent, naive, or immature. Many of them hold a faith in God that has been both purged and developed by the strains and perplexities of modern times, as well as by a small but by no means negligible direct experience of God Himself. They have seen enough to know that God is

Many years ago J. B. Phillips wrote an excellent book titled Your God Is Too Small. The thesis of the book was that there are things we consider impossible because we think we are too small, or too weak, or too poor. The problem with that line of thinking is that we are not figuring God into the equation. That thinking is still alive.

The people of Isaiah's day, and the people of our day, share the same sin in this respect: The god we often worship is too small. We were created, not to worship a god created by our mind, but to worship the God of the universe. We were created to worship the God of the Bible.

Like J. B. Phillips says, our God, our conception of God, the God that we have in our mind, is too small. He is not the true and the living God that we find within the Scriptures. As we read this Psalm we find one thing out about God, it is a word that begins with 'T' - often we read it in books and so forth, we maybe hear it from a pulpit, but we do not understand what it means.

Bible translator J. B. Phillips wrote a book entitled "Your God Is Too Small." In it he discusses how today we don't have a God big enough for our modern needs. 3. "Our mental horizons have been expanded...but our ideas of God have remained largely static."

In general, Phillips argues that we think small. We make God out to be a dictator or an absentee or cruel or simply remade in our own image and subsequently flawed in one way or another. But that's on us, not on Him. We project those fallacies onto Him, even though time and again He shows us that's not His character.

Quotes from JB Phillips' Your God Is Too Small I was introduced to JB Phillips many years ago. He is probably most famous for his New Testament in Modern English (a somewhat paraphrased translation of the New Testament, but very well done with a great story behind it!). You can read it online here.
